## I. Project plan

A project is more than a cool idea

## I. Project plan

# A project is more than a cool idea

What methods are you going to implement to reach your goal?

## I. Project plan

# A project is more than a cool idea

What methods are you going to implement to reach your goal?

What are the potential outcomes of your project?

## I. Project plan

# A project is more than a cool idea

What methods are you going to implement to reach your goal?

What are the potential outcomes of your project?

How will you disseminate the outcomes of your project?

## I. Project plan

A project idea must be coherent with its method, expected outcome, and dissemination

## I. Project plan

The project's creativity and quality is  
also about those columns !

Project title (the idea, a question)	Methods	Outcome	Dissemination
AI-based audioguide for personalized guided tours	<ul style="list-style-type: none"><li>• Survey among visitors to understand their experience with audioguides</li><li>• Implementation of a prototype</li></ul>	<ul style="list-style-type: none"><li>• Survey responses and insights</li><li>• A working prototype</li></ul>	<ul style="list-style-type: none"><li>• A public code repository of the prototype</li><li>• A blog post about the project</li></ul>

II. Roles

III. Assignment

## II. Roles

# Assign roles with concrete tasks

## II. Roles

# Assign roles with concrete tasks

**Dev**

</>

Responsible of:

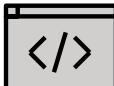

- 1. the system developpment**
- 2. the repository maintenance and documentation**

Must be confortable with  
programming, python, and machine  
learning libraries.

## II. Roles

# Assign roles with concrete tasks

**Dev**

Responsible of:

1. the system developpment
2. the repository maintenance and documentation

Must be confortable with programming, python, and machine learning libraries.

**Journalist**

Responsible of:

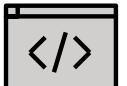

1. synthesizing relevant sources
2. writing and proofreading
3. dissemination

Must be confortable with reading scientific paper, google scholar, LaTeX/overleaf.

## II. Roles

# Assign roles with concrete tasks

### Dev

Responsible of:

1. the system developpment
2. the repository maintenance and documentation

Must be confortable with programming, python, and machine learning libraries.

### Journalist

Responsible of:

1. synthesizing relevant sources
2. writing and proofreading
3. dissemination

Must be confortable with reading scientific paper, google scholar, LaTeX/overleaf.

### Data scientist

Responsible of:

1. the statistical analysis of performance metrics
2. the report of results (figures, tables, and text)
3. Assisting the two other roles

Must be confortable with maths, statistics, and visualization libraries (seaborn, matplotlib etc.)

## II. Roles

# Assign roles with concrete tasks

## II. Roles

# Assign roles with concrete tasks

Roles have to be agreed as a team

## II. Roles

# Assign roles with concrete tasks

Roles have to be agreed as a team

You can invent new roles

## II. Roles

# Assign roles with concrete tasks

Roles have to be agreed as a team

You can invent new roles

Be mindful that coding is extremely time consuming !
